Rebuttal to Argument In Favor of Measure M

From "leaky roofs" to "21st Century Technology", every single reason in the ballot argument to vote for Measure M, was claimed, six years ago, as a reason for Measure S. But these bonds take 25 or 40 years to pay off! How many payments of \$81,000,000 or \$99,000,000 will this school renovation take?

Where will this money go? Who knows? The Board of Education could spend it on the District Office or any school. Nothing guarantees any money reaches your school at all. In fact, **your money might build one or more "community centers" instead of classrooms.**

Why? Because Measure S contains a vague and broad "Project List" which makes no guarantees, just like Measure S contained. A real project description, for example, should say "build an elementary school for \$1,000,000". However, these measures just list "computers", "cameras", or "community centers", which the Board of Education might buy with your money -- or might not. These measures look more like advertisements. They describe many wonderful things which your money might possibly buy, with tiny notes explaining that the Board of Education can pick what, if anything, to undertake. Will they actually update your school at all?

Of course, the Board of Education might spend your \$99,000,000 wisely. Perhaps you trust your current Board members. But remember, there will be many elections before these bonds are fully paid.

On top of \$81,000,000 from Measure S, the Board of Education of the Cabrillo Union School District now wants another \$99,000,000 bond. Will they buy "community centers", cameras, or computers with your money?
